The Business Computer Australia Has Been Waiting For

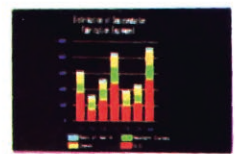

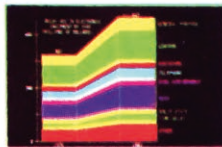

For the first time ever a business computer that offers dozens of standard features which expensive competition often cannot offer at all.

The ability to do all of the things you need to do is finally here.

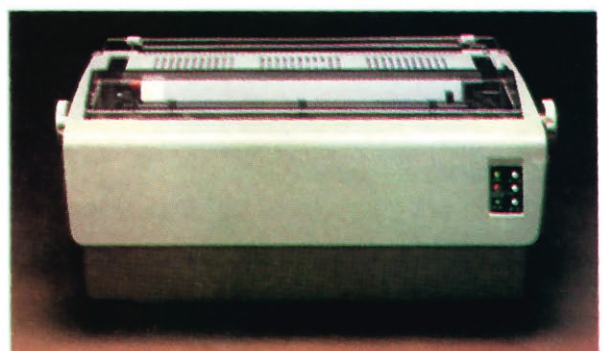

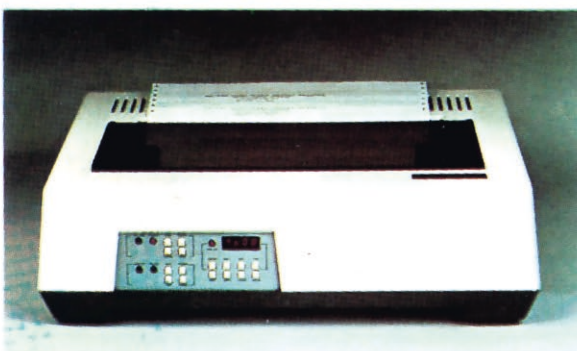

UNEQUALLED PERFORMANCE – YET UNEQUALLED EXPANSION CAPABILITY. UPGRADING MEMORY IS ACHIEVED BY PULLING OFF THE TOP AND PUSHING BOARDS INTO PLACE. PERIPHERAL SLOTS ARE USEFUL FOR A WIDE RANGE OF ADDITIONAL NEEDS, ELIMINATING THE USE AND COST OF EXTERNAL EXPANSION SYSTEMS.

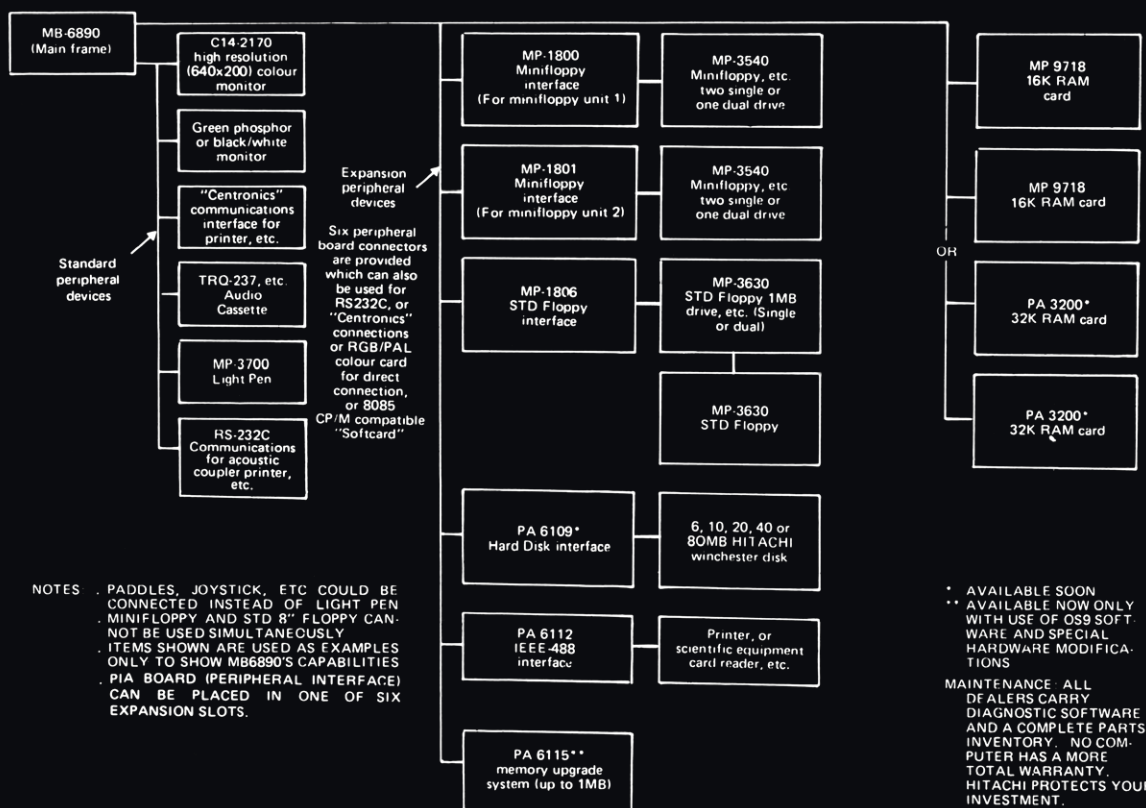

FOR YEARS AUSTRALIAN BUSINESS HAS BEEN FORCED TO CHOOSE BETWEEN LARGE, BULKY COMPUTER SYSTEMS WHICH WERE TYPICALLY EXPENSIVE BECAUSE OF THEIR OLD TECHNOLOGY AND HIGH MANUFACTURING COSTS, AND REASONABLE PRICED BUT UNDERPOWERED MICROCOMPUTERS WHICH WERE NEVER DESIGNED TO MEET THE NEEDS OF THE SERIOUS BUSINESS USER. FEATURES NECESSARY FOR BUSINESS USE SUCH AS PROGRAMMABLE FUNCTION KEYS, 80 COLUMN SCREEN, UPPER/LOWER CASE, RS232C CONNECTIONS AND MUCH MORE WERE EITHER UNAVAILABLE OR COULD BE PURCHASED ONLY AT VERY CONSIDERABLE COST.

HITACHI HAS SOLVED THOSE PROBLEMS FOREVER WITH BUSINESS SYSTEMS THAT EVERY BUSINESS CAN AFFORD, AND PROVIDES **SOLUTIONS** THAT NO DECISION MAKER CAN AFFORD TO IGNORE.

HITACHI PEACH SUPPORTS VIRTUALLY ANY PRINTER OR OTHER PERIPHERAL DEVICE.

HARDWARE CAPABILITIES OF THE MB6890 "PEACH" COMPUTER

The Brilliant New HITACHI PEACH Represents the Dawn of a New Era in Australian Computer Usage. No other Microcomputer System offers more features, is easier to use, has a more Comprehensive Warranty, is manufactured to Higher Standards, or offers better value for money. JAPAN'S Most Popular Computer is now available from Professional Dealers All Across Australia, complete with Excellent Australian-Developed Software.
